# Environmental Commitment

T: 01843 860212

E: Sales@PostSafe.co.uk

## Protecting OUR Environment

**PostSafe** (South East) is committed to playing its part in protecting the Environment.

Located in the idyllic coastal location of Thanet, Kent environmental impact is never far from our minds.

We have a strict Environmental policy which is reviewed annually ensuring that we exercise proper control over our activities to discourage environmentally damaging and wasteful practices.

Polythene Envelopes have an important role to play. They allow a greater weight of insert to be sent in a water resistant and secure product.

Other products, such as paper based products to meet similar criteria use up more resources in the production chain. Also, being heavier than plastic, paper products require additional distribution costs.

This uses other non-sustainable resources such as oil products and adds to air pollution. In addition, some paper mail products are coated to give increased protection and strength; these products cannot be recycled because of this coating.

**Plastic envelopes are a part of our everyday life  
dispose of them responsibly.**

PostSafe 

Biodegradable 

## Special, Bespoke or Overprinted service:

Have your logo or marketing printed directly on your envelopes.

Minimum Quantities apply

Delivery 2—4 weeks (from Approved Artwork)

Ideal for:

Brochures

Direct Mail

Promotional Activity
